## Double Side SNMX 1306 XTN Insert Expansion for 45°/75° cutters

# CHASE2QUAD

## Double Side SNMX 1306 XTN Insert Expansion for 45°/75° cutters

### FEATURES

- A single SNMX 1306 (XTN) insert for both 45°/75° degree entering angle cutters in both right/left handed type
- Depth of cut: 9.6 mm for 75° cutters & 6.35 mm for 45° cutters
- Double sided 8 corners with cutting edges mean economy

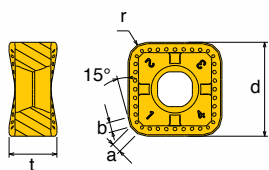

Based on market demand, TaeguTec is introducing a new **SNMX 1306 XTN** insert to the CHASE2QUAD product family. This new **SNMX 1306 XTN** insert has 2 wiper lands making it possible to use the insert flexibly on either 75° or 45° approach angle cutters.

This new introduction will contribute to reduced inventory of inserts for customers using both 45°/75° cutters in their machining setups.
